

# School Improvement Plan

## Goal #3

This Plan also meets legislative requirements for the Elementary Reading Achievement Plan, Professional Development Plan, and Trustlands Plan.

School Name: Sierra Bonita Elementary

School Year: 2014 - 2015

Goal: Students will receive regular instruction in the fine arts core from classroom teachers and fine art specialists.

Strategic Initiatives: Elementary Arts: Every child, quality art, every day

Action Plan(s):

1. Using the Utah State Fine Arts Core, teachers will develop grade level curriculum maps, which include integration across all curriculum content areas.
2. Teachers will work to teach at least one art form or integrate the arts into one content area each day.
3. Planning time offerings will be devoted to all four art forms (visual arts, music, drama, and creative movement/dance). These planning time instructors will collaborate with school fine arts specialists and classroom teachers regarding curriculum and students' needs.
4. As a school, we will continue to strengthen and expand before, during, and after school offerings in the fine arts.

Measurements of Success: Artifacts will include grade level curriculum maps, student art pieces, performances, and participation in extracurricular programs including Reflections.

Supporting Professional Development Activities (if applicable):

1. Teachers will participate in professional development opportunities provided by district arts specialists and school fine arts team to strengthen arts instruction and integration of the arts core.
