## SafeUT Updates Spring 2020 Presentation

We recently held a SafeUT Spring 2020 Updates Skype presentation for all K-12 and Higher Ed Admin Users. Thanks to those who were able to attend. If you were unable to attend, you were emailed a link on May 12 to watch the recorded presentation. Please contact us with questions!

## Message from a Parent to SafeUT

### Success Stories

*I just want to say thank you. My daughter has the SafeUT app on her phone. She has been depressed a long time. We didn't realize how depressed: enough to attempt suicide by taking a large amount of common pills. After taking the pills and passing out or falling asleep for a while, a voice in her head (I believe God or a loved one that has passed on) told her, "Get up and call SafeUT." She probably wouldn't have died, but if she hadn't gotten up and gotten help/advice, she could have suffered serious liver damage and ongoing issues related to that. When I heard her on the phone around midnight, I went to see what was wrong. My daughter handed me her phone and the young woman at SafeUT told me what had happened so that we could get her to the emergency room and get the treatment she needed (which is ongoing). Thank you for providing a valuable community service that especially helps youth with these kinds of troubles.*
