Online Coding Camps
Nebo District Students Grades 4-9

Ever wondered how a website works? Or how an app is programmed? Or how new software is developed?

Coding camps are for you!

We are excited to announce after-school computer coding classes at various locations throughout Nebo District. Students will learn the basics of computer science using the language SCRATCH 2.0. A 4 week introduction course will be held Nov 2015 and another one mid-Jan thru mid-Feb 2016. Intro classes are $20. An 8-10 week intermediate/advanced class will be held mid-Jan through the end of Mar 2016. This class will be $45. Whether you are a beginner wanting to learn the basics or are a pro, these classes are for you.

*A competition team will be formed Spring 2016 to compete at UVU on International Scratch Day - May 14, 2016.
