### Review of School Data from 2022 End of Year Testing & Current Data: Mr. Andersen

RISE Data Proficiency:

Grades 3-5 (2021-2022)

- LA 55%
- Mathematics 62%
- Science 55%

Grade 3-5 (2020-2021)

- LA 47%
- Mathematics 56%
- Science 55%

Scores attributed to training of teachers through LETRS, PLC's looking at the data, collaborating, etc. A score of a 3 or 4 show they have the knowledge and can apply it in different ways rather than answer the basic level question.

Acadience Reading (K-3 grades)

- 2020-2021 81% Proficient
- 2021-2022 81% Proficient

Our school will receive CMI Training, typically after schools have gone through the training  
Mathematic scores increase 10%.

Leveled Library Discussion: Parents are wanting higher levels of books, students may be able to read but they are missing key skills or concepts and we want to fill those gaps. This is why students will be held at the correct level.

Literacy Collaboration: teachers are meeting with administration and instructional coach looking over MOY data, making sure students are in their correct groups, correct skills are being taught, etc.

ESSER and Teacher collaboration is working well. We are seeing growth in Acadience MOY.

**Prevention Awareness: Heather Telford**

- Mrs. Smith will bring a proposal for health
- \$1,000 per school year
- Can use with students sessions, assemblies for anxiety, depression, mental health, etc

**Review and Solidity Goal #1 for next year**
