### **Introduction of Members:**

All members introduced themselves to the council.

### **SCC Duties and Responsibilities:**

- PowerPoint: “Collaborating to Improve Student Success Officer Training for Councils”
  - This PowerPoint was presented and discussed by Mr. Andersen, council members asked clarifying question. We discussed who has what job on the council and if we need to have sub committees we can for those at that time.

### **Health and Safety for School Councils:**

- [Health and Safety Video](#)
  - This video was watched and discussed and we will be looking at our Safety Plan more in depth later this year.

### **NetSmartz discussion with Mr. Andersen:**

- In years past, NetSmartz has come to our school and held in person assemblies. This year due to COVID they have sent links to teachers to go through with their classes. These lessons are grade level specific and can have anywhere from 3-6 lessons in them. These presentation are interactive for student and offer areas to stop and have discussions with their class. Teachers share with the council that the discussions during these lessons have been amazing. Students feel safe sharing their thoughts and feelings with their class rather than in an assembly. Teachers hope to continue this format in years to come.

### **Other:**

- Mr. Andersen had the council member go out into the front hall and see the newly installed television. This television displays our new “Kindness Wall”. Students, parents, teachers and staff can submit kind messages to our students as a whole, individual students or teachers using this [link](#). He encouraged all council members to submit a message. More televisions will be installed in various locations throughout the school.
- David Smith took a moment to say; Thank you to the faculty and staff at Sierra Bonita for their great efforts amidst COVID.
